VERY REV. WILLIAM L. KELEHER, S.J.

Elsewhere in this issue I know you will have a full report on the progress of our campaign for the College of Business Administration. My own remarks on the campaign can be summed up in a very sincere word of appreciation to those members of the Alumni who have worked earnestly to help us in this venture. It has been a matter of disappointment to some of us to find that the number of volunteer workers among the Alumni has not been such that we can feel we have the coverage which is needed if this drive is to be a success. The same loyal sons of Boston College who gave so generously a year ago have rallied to our call again and are giving of their time and effort in this appeal. But they cannot do it alone. They need help, your help, and they need it now, if Boston College is to go ahead. We have the friends who will help, if they can be reached. As we come to the final stages of our campaign, let me make one last appeal to all the members of the Alumni Association to follow the lead of the active workers and through their combined efforts make this campaign a success.

The buildings at the Heights are going ahead. In addition to the College of Business Administration, we are erecting a central heating plant

and maintenance building. The completion of this new structure will liberate further space in the older buildings and allow us to inaugurate other activities. The temporary buildings are more than proving their worth. The classroom building is accommodating students in the Arts and Science and Business School, and the Auditorium has become the center of activity on the campus. Every day, and most evenings, it is in use, with activities ranging from convocations to rallies, from games to dramatic productions, retreats and dances.

On November 26th the college honored the youngest of her sons to be honored with the episcopal dignity. His Excellency, the Most Reverend John J. Wright, Auxiliary Bishop of Boston, was the recipient of an honorary degree at a convocation of the faculties and student hodies.

This issue of the News will be the last before Christmas, so let me take this occasion to extend to all the members of the Alumni Association our best wishes for a happy and holy Christmas. For myself and for all the Fathers at the Heights I say God bless you with His graces and blessings. May the peace of the Christ Child be yours. And may the blessings of the Holy Family be with you and yours in the years to come.

CORNERSTONE LAID

Another page in the history of Boston College was written when the cornerstone for the School of Business Administration was laid on Octoher 30

The new building, situated behind the Tower Building, will be the fifth Gothic structure to be erected since Father Gasson, S.J., first conceived the idea of a new Boston College on University Heights.

Archbishop Cushing, Very Reverend William L. Keleher, S.J., President of the College, and Rev. James J. Kelley, S.J., Dean of the Business

School, addressed the gathering.

Attending the ceremony were Bishop John J. Wright, Very Rev. John J. McEleney, S.J., Provincial of the New England Province of the Society of Jesus, Rt. Rev. Walter J. Furlong, Chancellor of the Archdiocese of Boston, Mayor Paul Goddard of Newton and Acting Mayor John B. Hynes of Boston.

Archbishop Cushing's address follows:

I am proud to take part in this ceremony laying the cornerstone of the new Boston College School of Business. The beginning at this time of such a building involves a courageous act of faith: of faith in God's Providence on which we rely in every work, praying that, as the work is begun for God, so by Him, it may be happily ended; of faith in the future, the peace of which is so essential to educational plans such as these; of faith in the community, the generosity of which can alone, under God, make the project possible. Boston College educates for peace; this new unit on the growing campus is a symbol of that fact. We try in our schools and colleges to build manly characters such that if wars come, if they are forced upon us, our graduates can take their places honorably with the brayest and the best. But our education is never for war, it is always for peace. The ambition to build a school to teach one of the great modern arts of peace—commerce and business—is particularly praiseworthy at a time when so much money, so much talent, so many forces are dedicated to programs for war and for the formation of youth in terms of war. The beginning of the school which will rise from this cornerstone is an act of faith that peace is here to stay; it is also a step-an important step-toward the preservation of that peace. Boston College has never

taught the arts of war nor the principles that make for war; it does not now; it never will. The College deserves the support of all those who believe in peace, who desire peace and who are willing to work for peace.

The laying of this cornerstone is an act of faith in the generosity of our community. It is not a difficult act of faith because the grounds for it are many and solid. Boston College deserves well of our Metropolitan Boston community. The College has given a religious motivation to the lives of many who do not share the faith of those who teach here. It has exercised a long and constructive influence in the moral atmosphere of this locality. The College has been a force for personal and public integrity since first it opened its doors more than three quarters of a centry ago. For this reason it has won the respect of men and women of every class, creed and interest. The College has made many friends; it hopes to have their generous cooperation in the completion of this new community project—a school designed to serve the best interests of the entire community.

Two weeks ago we celebrated the hundreth anniversary of the coming to Boston of the Society of Jesus, the Fathers who conduct Boston College. The celebration occasioned the passing recollection of the coldness with which the Fathers were at first received by a community which knew little or nothing of them or their work. The same celebration, however, served as a permanent reminder of how that early coldness had been dispelled by the warm friendship between all sections of our social life and the Jesuits at Boston College. Much of that is due to a general appreciation of the place of the College in the community life. Much is also due to the personal affection of Greater Bostonians for many individual personalities identified with the life of the College. I need not mention living professors, past and present, who have made friends for Boston College on every side; from among the dead I recall but a few: Father Thomas Gasson, Father Charles Lyons, Father Jones I. J. Corrigan, Father William Devlin, Father William Brett, Father Patrick McHugh and Father James F. Mellyn. This new building is being erected in the hope that like men may in future serve other students and through them Greater Boston as did the illustrious priests I have named and their devoted co-workers here on University Heights.

I began by expressing pride in the privilege that is mine in laying this cornerstone. I end with the prayer that what we begin today may be speedily and successfully brought to its happy conclusion. May God bless all who help the College to build! May the blessing of God Almighty, Father, Son and Holy Ghost, descend upon Boston College, teachers, students and friends, and remain with us forever.

BISHOP WRIGHT RECEIVES DEGREE

At a special convocation of the Faculty and students on November 26 the College conferred the honorary degree of Doctor of Laws on Most Reverend John J. Wright, D.D. Auxiliary Bishop of Boston. Bishop Wright, a member of the Class of 1931, received the degree from the President of the College, Very Reverend William L. Keleher, S.J.

DRAMATIC CLUB

On October 6 the first meeting of the Dramatic Club of the Alumni Association was held at the Dramatic Workshop at the Heights. Twenty members participated in a discussion of the aims of the organization.

It was agreed that the group would become affiliated with the local chapter of the National Catholic Theatre Conference.

A policy committee was appointed to formulate a program. The members are: Paul Λ. Good, '43; Joseph Hurley, '43; Joseph Figurito, '44; Clarence Long, '34.

Rev. John L. Bonn, S.J., is the moderator of the club.

BOWLING LEAGUE

Every Monday evening the Bowling League meets in competition at Shanley's, 615 Washington Street, Boston. Clubs with teams are: Cambridge, Dorchester, Milton, Hyde Park, West Roxbury, Chelsea, East Boston and Quincy.

The three highest scorers are: Tom McLaughlin (Cambridge), 97.7; Earl Foley (Hyde Park), 97.5; Jim Heggie (West Roxbury), 93.4

DINNER DANCE

On Friday, November 28, the annual dinner dance of the Association was held at the Copley Plaza, Boston. Alumni President J. Lester Hourigan, '24, appointed William M. Cashin, '18, as chairman.

COLLEGE ENROLLMENT

Two thirds of the students at the Heights are veterans. The total enrollment for the College of Arts and Sciences and the Business School is 3968. There are 1861 veterans and 1031 non-veterans in Arts and Sciences. In the Business School there are 795 veterans and 281 non-veterans.

INDUSTRIAL RELATIONS SCHOOL

Rev. Thomas E. Shortell, S.J., former Director of the Holy Cross Labor School, has announced that in the early part of 1948 there will be a Boston College Institute of Industrial Relations. The Institute will discuss the problems of management and of workingmen and classes will be held in a convenient downtown building during February, March and April. The success of the Industrial Relations Forum at the Institute of Adult Education during the fall has warranted the establishment of an independent Institute of Industrial Relations and Fr. Shortell has announced that in addition to the College Faculty prominent national figures from management and labor will address the classes.

INSTITUE OF ADULT EDUCATION

The College's Institute of Adult Education has just concluded its most successful fall session with almost 400 people attending the classes at 126 Newbury St., Boston. These classes are open to the public at the nominal fee of five dollars for a seven weeks course and have no academic requirements or formalities of any kind. In establishing such a school Boston College is one of the first universities in the East to offer its faculty and facilities to the community in which it resides. In courses of limited registration, however, first preference will be given to those of the Alumni and their wives who wish to attend.

During the winter session which will open on Monday and Tuesday evenings, January 5 and 6, courses will be offered in Religion, Philosophy, Current Events, Creative Writing, Public Speaking and Appreciation of Music. Advance registrations may be made by writing to Rev. John W. Ryan, S.J., Boston College, Chestnut Hill. Literature describing the courses will be sent on request.

BOSTON COLLEGE HISTORY

According to latest advices from the publishers, the long-awaited History of Boston College by Father David R. Dunigan, S.J., of the College faculty, will be on the bookstands about December 1st. It will contain some 350 pages of text, and 20 pages of pictures. One of the valuable features of the book will be a complete, crossreferenced index which will help in locating names; dates and incidents connected with the College. Revision of the latter portions of the work bring it up to September, 1947, and will provide a check-list of what has been going on at the Heights for those who have been away for some time. It is being published by Bruce of Milwaukee, and the price will be \$3.50. Your bookstore will have it, or you may order by mail from the Boston College Bookstore, Chestnut Hill 67, Mass.

EARLY BOSTON COLLEGE HISTORY

In October St. Mary's Church, North End, Boston, observed its 100th anniversary under the direction of the Jesuit Fathers. The celebration brings to mind the thought that in 1847 the histories of Boston College and St. Mary's were one. In 1847 the first Jesuit pastor of St. Mary's was Father John McElroy who labored through the years until his one wish was realized—the opening of Boston College in 1864.

In 1842 Father McElroy came to Boston at the request of Bishop Fenwick as retreat master of the first retreat given to the clergy in the diocese. At the time he suggested to the bishop the idea of a Jesuit college here. Bishop Fenwick died in 1845 and was succeeded by Bishop Fitzpatrick. The latter offered St. Mary's to the Jesuits. In October, 1847, Father McElroy returned to Boston as pastor of St. Mary's parish.

During the following years Father McElroy struggled to open a school. A letter written by

him in 1854 reveals his efforts:

"In 1840 (1842), being here at the request of Bishop Fenwick, giving the exercises (of St. Ignatins) to the Clergy of his diocese, I proposed to him the advantages of a College in this City. He admitted my views and promised after an experiment of Holy Cross (College) which he was then building, he would erect one in Boston and give us a church. In 1847, being requested to come here for the same purpose by the present Bishop. I reminded him of his predecessor's intention. He answered he would comply as to the church and offered St. Mary's if Father Prov (Verhaegen) would send me here. In October of the same year I was sent by the Prov with two fathers and took charge of the congregation containing about 8000 Catholics. For six years I looked around the city for a suitable locality for a Church and College. In March, 1853 I finally purchased ground, the most eligible to be found in the City for our purpose, having the consent of the Bishop to erect hereone a Church and College—on the premises is a very fine, large, substantial building of granite erected for a Court House at a cost of 60,000 dollars. This I had fitted up for a dwelling for a large community, having 30 rooms in it, at an expense of two thousand dollars—at present I rent it to a respectable family (until we build our Church and College) for 1000 dollars a year. This land belonged to the City and was restricted, when sold, to the building of stores or dwellings by the purchaser. The present City government refuses to rescind such restrictions, but as the City Council with the Mayor are elected annually, I am assured that in one or two years we can build a Church. The land thus purchased cost 59,291

dollars of which I have paid 23,488 dollars and am prepared to pay the next installment in Apl: '55 of 5,766 dollars and the same sum is to be paid annually for six years-with the next payment nearly one half of the whole purchase money will have been paid—besides, I have paid for interest, repairs and taxes 5,575 dollars all of which were the savings of this residence for seven years. There are over 29 thousand feet of land, sufficient for a Church and a College each 132 feet long by 70 feet wide with the dwelling house in the center. Not being permitted to erect the church at present, I proposed to Father Prov to commence the college next Spring and build a part if not the whole, and commence with a class of Latin Grammar and add the other classes gradually, as we have the means-to this Fr. Provincial assented and promised me some more efficient help to enable me to attend to the collection of means and preparing for the building.

"In this city above 20 of our fathers, if they could be spared, would find employment in the confessional, cathechizing, instructing etc. in a population of 70,000 Caths. - and only 14 or 15 priests. Missions or retreats might be given throughout New England and with great fruit if one had the Members. A college here, well regulated, would in time supply many of the present wants, and as our Bishop desired it so much and is so friendly and kind to us, the time is most favorable for its commencement. It is truly painful to see so large a number of Cath. boys in our city and not one Catholic School in the city, for want of such hundreds of our youth are lost to religion-when Rev. Fr. Prov is here he admits all I say on the subject, but when he returns to Georgetown he seems to lose sight of us, the distance is so great. Blessed, as I am, with good health at my advanced age (72) I am anxious, if our Lord pleases, to be his instrument in the founding of a college in a city where so much is to be done and His honor and glory promoted. The faithful are very well disposed to us, very liberal in their contributions for all our undertakings, and although not of the number of the rich, they give freely of what they have and their large numbers supply in small sums what is wanting in riches. I still hope, if Father Prov will assist me, that I may be able to send the plan and drawings of the future college, also the estimates, before next Spring, with my prospects of the means necessary for the undertaking. . . . If our college and new church were built and paid for, which could be done in a few years, we might then cease from doing parochial duties and confine ourselves to

the functions proper to our Soc(iety): The revenue of the two churches would be all sufficient to support the college without charging any fees for tuition—this would make us more respected by the clergy and laity."

Eventually in 1857 Father McElroy obtained the land on Harrison Avenue, in 1859 the school was half up; in 1860 the school was opened as a house of studies for Jesuit seminarians; in 1862 it was closed for economic reasons. Finally Boston College opened its doors in September, 1864.

Our football team may be said to be enjoying a good season, for victories over Clemson, Kansas State, Villanova, Georgetown, and St. Mary's tip the balance over three losses to Southern rivals, Louisiana State, (Wake Forest, and Tennessee, while only the Holy Cross game remains to be played. So whether we win over the Purple or lose, we may say that we have been successful. For a time, Boston College was considered a bowl possibility—even after the Eagles suffered a heart-breaking, thrilling, 14-13 defeat to L.S.U. the Orange Bowl officials were definitely interested, but subsequent losses to Wake Forest and Tennessee knocked any bowl aspiration from the minds of the players. Yet, Sarno has turned out a line second to none in the East; the ends, coached by Dave Lucey have improved every game, and one of them, Art Spinney, ranks with the best wingmen in New England. Another, John Ring, is the son of perhaps the best-known Boston schoolboy of all time-the fabulous Tommy Ring of Commerce. Coach Myers has given us a dazzling offence that packs in the football fans every time that Boston takes the field, despite stern local competition.

Never has a Boston College coach produced a more puzzling offence. Forwards, laterals, shovel passes, hidden ball plays, screen passes fill a bag of magic as mystifying to opponents as it is to the customers. Daring fourth-down passes and laterals in their own danger zone keep the fans in an uproar. So good are the quarterbacks that Dave Burke, fourth string in 1946, elected to transfer and has made the third All-Maine eleven for Adam Walsh at Bowdoin.

It is difficult to select any game as being the game of the year. If I were to choose All-Time games for another edition of Athletics at Boston College (which by the way is still available to the Alumni), surely the 32-20 victory over Clemson and the 14-13 losses to L. S. U. and Wake Forest would merit consideration. All three games left the rooters weak—like the tremendous game with Georgetown in 1940. In all three games the Eagles came from behind, once to overtake a fighting Clemson Tiger and twice to send clubs back home glad to settle for one point. Clemson showed the best back to appear at Braves Feld for the year—Johnny Gage, 165 pounds of dynamite, who passed like Charley O'Rourke and who ran like Weston. Not until the second half was B. C. able to turn the tide. and then through the scintillating work of Diminick. Kansas State was no match for the rampant Eagles, who made 341 yards by rushing and 165 through the air, masterminded by Stuka,

who threw 12 strikes as Myers cleaned the bench. TD's were made by eight different men—Ring, Norden, Poissant, Stuka, DeRosa, Boverini, Cannava, and Walsh.

Two B. C. men were magnificient in the backfield, Tom Brennan for his punting and Diminick for his running as the Eagles were clawed by L. S. U. 14-13, in a rip-roaring game in which the Eagles lost the decision but won the hearts of the crowd for its breath-taking second half. Tittle of the Southerners was every bit as great as his personable press agent, Woburn's Jim Corbett, had prophesied, for Tittle was one of the super passers of the year. 37,000 cheered him to the echo for his feats. He was always dangerous, and only the 47 yard average punting of Brennan kept the Tigers at bay.

Villanova sent up a clever and resourceful eleven—B. C. squeezed out a 6-0 victory through the masterful play of Diminick, who must take his place among the great running backs of a decade, for the way he ate up yardage when the going was tough. 6-0 was a proper score—just as 14-14 would have been right the week earlier. Villanova's line was a match for the forward wall of the Eagles, and only a daring theft of the ball by Stuka saved the day for the Maroon. Diminick's 55 yard jaunt was the only score of a hard-fought game.

Bowl football, perhaps the best of the B. C. season, was turned in against Georgetown, a team far better than its record. Clasby dominated the game, and his passing and deception kept the Hoyas puzzled all afternoon, as clever running plays, deceptive ball handling, and a hard-charging line were combined to send the hopeful Blue and Gray home discouraged.

Boston College has been guilty of three cardinal sins all year—meriting penalties, fumbling, and failing to kick the point after, and these errors brought downfall in two games with Southern rivals, for Wake Forest edged the Eagles 14-13 on a missed conversion and on B. C. touchdowns lost through penalties, while Tennessee poured it on a hapless Boston team that drew 105 yards in penalties, and fumbled at critical times. The Wake Forest game was positively thrilling as the Eagles pushed the Deacons all around the field, 19 first downs to 3, yet fumbled the game away and threw passes that boomeranged. A fifteen yard penalty on the opening kickoff paved the way for the first Deacon touchdown, then Poissant tied up the score; Wake Forest went ahead again, then Cannava carried from the one; but the point was missed and the game was lost. The Tennessee game was and from a Boston viewpoint, for never after the

first few minutes when Benedetto put the Eagles in the lead were they really in the hunt. Penalties, pass interceptions, and fumbles set up the Vols eleven that was aroused to a fever pitch, and the Maroon, playing their most impotent game of the season, were crushed. St. Mary's of California, with the wonderful Wedemeyer, was defeated by B. C. in a major game, yet the Eagles did not look so good in winning as they did in losing against L.S.U. Benedetto, Kissell, Lanoue, and Diminick scored the points, but the club was vulnerable to penalties. These two weaknesses and the tendency to fumble may be costly in the climatic game with Holy Cross, which has not been defeated by B. C. in six years.

BASKETBALL

Have you visited the basketball team at its new practice quarters at the College? If not, drop out and meet Coach McClellan who bubbles over with enthusiasm for the 85x48 court, almost the same size as that of the Boston Garden. Everything is wonderful, he says, good shower facilities, good lighting, and a DiNatale floor, the best that there is.

The general expects good things from his squad. True, no freshmen are available, but he has lost only Sharry from last year's team. Kenney, Carr, O'Brien, Higgins, Stagoff, Bricker, Wolf, Mara, Harrington, and others are working ont, while Fitzgerald and Crimmins of the 1945 team are on deck. "Fitzy" has entirely recovered from the accident that sheared off part of his heel. "My team will be better," said McClellan. "Spirit has improved because conditions are perfect. Shooting will be 50 per ceut more accurate because the lads have had a good chance to practice. And the boys are raring to meet the best, and we have them in Texas Wesleyan, Rhode Island State, Holy Cross, and Bowling Green." Letvinchuk will make an inspiring captain, and with the figure of Morgenthaller missing, the team will be able to develop a better passing game.

Boston College plays a 20 game schedule, and more games may yet be arranged. Home games are listed for the Arena, the Garden, and Mechanics Building. Let us hope that when the new gymnasium is erected, there will be 6,000 seats for basketball of the major league college type is here at the Heights to stay.

The freshman team, which opens with Rhode IIsland State between the halves of the Varsity game will show new men to Boston College adherents. Among the I40 candidates who answered first call is Savage from Latin School. Although local boys predominate, very prominent are Deegan, Jeski, Hickey, and Gaffney from New York and Kirby from New Jersey. McClellan will handle both squads and feels that by playing his freshman with his varsity, he will levelop the new men fast.

HOCKEY

Coach Kelley of the hockey squad has his work cut out for him, for stars who have represented the Eagles for several seasons are now among the Alumni, and the Freshman Rule is back with us. Yet, John is not worrying about losing games -he is worrying that the Dartmouth game has not been clinched. This shows the courage of the man, for most teams would like to run out of a game with the Big Green, but Kelley is afraid of no one. "We will have only a fair club," he says. "We have lost Ed Burns, Jack Harvey, John Murphy, and Alex McLean, men on whom we depended last year. We have an outstanding goalie in Bernie Burke, a clever pair in Cocaptains Mason and Corcoran. Gallagher has always been good, and Warren Lewis is carrying on just as he did at B. C. High. Ed Songin is a prospect for the Bruins." Other veterans are Daily, Fitzgerald, McCusker, McIntire, Talbot, and Threadgold.

Practice has already started—often in the wee small hours of the morning. The schedule is well conceived—two-game series with B. U., North-castern, Tech, Devens, and Harvard, and single games with Princeton, New Hampshire, and Middlebury have already been arranged, and a dozen more are pending. Holy Cross has found the beautiful Blackstone too cold for hockey.

The Freshman Six has several men who are excellent hockey players. Vin Murphy from St. Sebastian's, has sent three good boys in Mulhern, Phillips, and McGrath. Ceglaski, all-State, has reported, as has Walsh from Arlington. Bob Mee, freshman coach, has already shown his skill in developing hockey teams and the freshman team should do well.

Jack Kapples (Quincy) is a vicechairman with Bill O'Sullivan of the Commerce and Industry Division in the Business School Fund Drive. John, Jr., has returned to Georgetown University.

Reading a recent edition of "The Heights," we were reminded that it was our Fr. Ed McLaughlin, pastor at Hamilton, who in 1920 in a letter to "The Heights" suggested the Eagle as our emblem and symbol. As Fr. Ed wrote, "And why not the Eagle, symbolic of majesty, power and freedom? Its natural habitat is the high places. Surely the Heights is made to order for such a selection. Proud would the B. C. man feel to see the Eagle snatching the trophy of victory from old opponents, their tattered banner clutched in his talons as he flies aloft." This suggestion, as we now know, was enthusiastically received and adopted.

John Keohane's daughter, M. Agatha (Emmanuel College '42), is registrar of the new B. C. School of Nursing.

In May, Dr. and Mrs. James Conway announced the birth of their sixth child, Stephen Tristam. The Conways now have four sons and two daughters.

Thanks to Ralph Good for calling onr attention to the current issue of "The Field Afar" (Maryknoll Mission magazine). In it there is an article by Rev. Joseph Cosgrove which was reproduced in the Boston Post and which is of interest to members of 1925. It relates how Fr. Joseph Regan could have

stepped into the mayor's job in a South China community, but he elected not to do so. The people of the town dissatisfied with the distribution of relief supplies decided to rid themselves of their police force and government officials and thronged into Father Joe's yard exhorting him to take over the administrative affairs of the town. Facing the noisy populace from his mission porch, our classmate declined the offer with profuse thanks. Incidentally, the article mentioned that all of the children at Laipo Mission (Fr. Regan's) can sing "For Boston." The sympathy of the class is extended to Howard Healy on the death of his sister, Margaret, last month.

Hats off to Bill O'Brien, who in Elgin, Illinois, has shown more interest in class affairs and more of the old class spirit than many of our local brethren. Although many classmates are living nearby, they haven't been able to attend a class meeting in years, so now a committee is being appointed to stir things up a bit at Bill's welcome urging. Thus, it is hoped that some purely social affairs will be arranged for the coming months. Anniversary rennions and drives in the past few years have been necessarily affected by the need for contributions to the College, With the assistance of fresh energy and new enthusiasm from several classmates, a new program is about to be planned.

Your reporter takes this opportunity to thank the many classmates who extended their sympathy to the writer on the loss of his mother on October 24.

Father Jim Shaughnessey is now stationed at St. James. Haverhill. We met Frank Donahue at a freshman football game at the Heights recently. He is still sales manager of the J. Hubbard Co., handling Red Cross and Dr. Hubbard products.

FRANCIS X. SULLIVAN 51 Presentation Rd., Brighton 35

The next reunion of the class will be held at the Hotel Bostonian, December 29 at 6:30 p.m. This will be a very important meeting because it will take the form of an official class reception to one of our distinguished classmates, Father Walter Leach who has been raised to the rank of Monsignor. So, be on hand on the 29th to honor him and meet the boys again. It was voted last Spring to hold this Christmas meeting in place of the usual Fall gathering. More details will be coming your way later. This advance notice is given so that you will be sure to reserve the 29th of December

Jack Donahue is working wonders with his North Quincy High Football team. At this writing they are undefeated and leading the Class B High School division. Jack always had plenty of power and we wish him many more tochdowns.

"The 'boys of '27" are very active in the public drive for funds for the College. Walter Waldron is not only the treasurer of the Alumni Ass'n but is also one of the maiusprings of the public drive.

Joe Ingoldsby is chairman of the drive in Milton. Fred Harkins directs in Needham, and Joe O'Brien is co-chairman in Quincy. Working with Fred in Needham are Tom Keefe, Fred McDermott and Howard Buckley. John Folan is chairman of the Norwood-Dedham section, and John Cavanaugh is very active iu Framingham. There maybe others who are actively interested in their sections but their names have not come to my attention. Your correspondent, after marching with the unit of Our Lady of the Presentation parish in the Holy Name parade, reviewed as much of the remainder of the grand demonstration of faith and loyalty as his sagging leg muscles would permit. However, he did spot Fathers Joe Lyons, John E. Connors and Joe Sullivan marching along with their parish units, Fred Harkins was very prominent in his borrowed tall hat. He is now in charge of the membership drive for the Holy Name organization. There may have been and undoubtedly were many others of '27 who marched. If I missed you, God didn't.

Father Joe McCall has broken into print again, this time in the Boston Post. His poem at the dinner of the "L Street Brownies" proves that Joe can still do everything very well.

Father Bernie Fiekers, S.J., was highly honored recently when he was elected president of the American Association of Jesuit Scientists, Eastern Division. He is chairman of the Chemistry department at Holy Cross.

That fellow who tried to assault Bill Ohrenberger in Buffalo (pro football game) must have seen Bill previously only from a distance.

Tom O'Keefe is treasurer of the newly formed Boston Teachers' Alliance which won such a smashing victory at the polls on November 4th.

Tom Heffernan has five children. He is doing an excellent job on the bulletin of the Catholic Alumni Sodality.

Two of our classmates, Richard Kelley and Father John Gibbons are at the Holy Ghost Hospital in Cambridge and have been there for sometime. If you have a minute why not drop in to see them. They will be delighted to see you. Dr. Tim Lyons is working hard on the Carney Hospital drive.

The "idle rumor" information in my possession says that Henry F. McCloskey alias "Luke" is going into business. We wish him all kinds of success. More details will come when we get them. Someone said that it was the candle business. If so, his experience as Prefect of the Sodality in Senior will come in very handy.

Merry Christmas! Happy New Year! And don't forget the meeting, December 29.

America's Super Market-Place

A FAMOUS foreign correspondent who has roamed the globe for many years is back home with the observation that "the supermarket is the symbol of Americans' super-life".

To all the world the super-market exemplifies the bountiful life we have built in America.

Actually, a circuit of your A&P super-market on any Main Street in the country reveals an amazing collection of over 2,000 individual items. These represent the efforts of millions of farmers, shippers, processors and factory workers. They constitute the bulk of the non-heavy freight handled by the nation's railroads. They involve the livelihood of hundreds of thousands of warehouse and retail-store employees.

Providing abundance at the retail level, these 2,000 items represent a triumph for modern distribution which places the output of the fields and orchards of the world at the disposal of a people spread over more than 3,000,000 square miles of territory.

 $\mbox{A$\mathcal{G}$P's}$ constant goal in this respect is to seek out these foods wherever they are, to speed their movement from farm to dinner table and to cut waste and cost wherever they occur. Its success has contributed heavily to the tremendous variety from which the nation selects a wholesome daily diet.

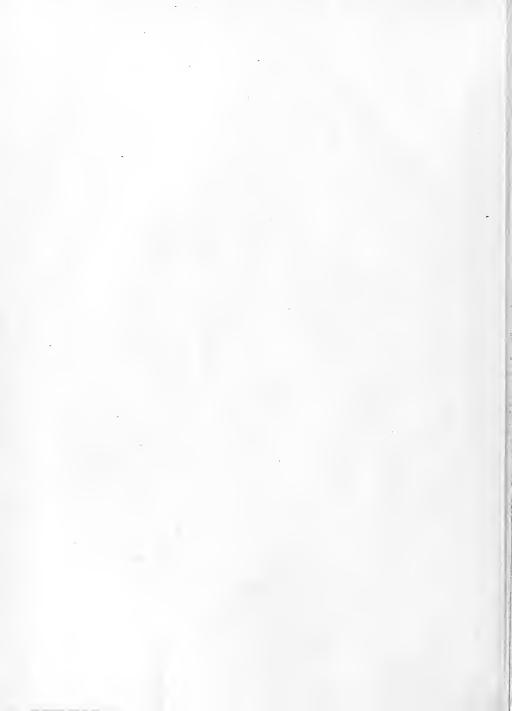

Having pioneered modern marketing for more than 88 years, the men and women of A&P continue to do the nation's most efficient job of food distribution.
